

Nova International, Inc.

Dear Sir / Ma'am,

Nova International is a Washington DC-based small business contractor serving US and international military, humanitarian, commercial and diplomatic agencies outside the United States.

I am heading up Nova International's Deployable Equipment program, highlighted by our multiple deployable building systems, manufactured in strategic regions with factories located throughout the US, Asia, Africa and Europe. All types of pre-engineered buildings are provided - remote camp accommodations, offices, ablutions, large span warehouses, etc.

We specialize providing deployable structures to remote military, humanitarian and diplomatic facilities; recent projects include containerized shelters for humanitarian agencies for tsunami relief operations in Indonesia, base camp shelters for African Union peacekeeping troops in Sudan and containerized support structures for the US Army in Central America. Regional manufacturing allows us to provide cost effective and time sensitive solutions to pre-engineered building requirements and we can provide turnkey services anywhere on earth.

Please contact Nova International with any modular shelter requirements in Sudan or elsewhere and we will develop practical solutions to meet your needs. Thank you in advance

Robert Wood
